

ANDRE NUNES DA SILVA

267-588-0908 | an3243@drexel.edu

Education

Drexel University

Bachelor of Science in Software Engineering

Expected Graduation: Jun 2030

Philadelphia, PA

- **GPA:** 3.4
- **Relevant Coursework:** Introduction to Computer Science, Computer Programming I, Calculus I, Comp & Info Design I, II, III, Preparation for Engineering Studies

Experience

Acme Markets

Clerk Associate

Jan 2024 – Feb 2025

Philadelphia, PA

- Picked, packed, and staged online grocery orders for curbside pickup through Acme's **Drive Up & Go** service, checking items for accuracy before handoff
- Assisted customers in-store and at curbside with questions, missing items, and basic order issues
- Worked alongside a team to keep up with order volume during busy shifts while following store procedures

Food Truck Finder | [Source Code](#)

Full-Stack Web Application | **Python** | **Flask** | **SQLAlchemy**

Jan 2026 – Jun 2026

Project

- Built a **full-stack web application** enabling users to discover and review local food trucks, supporting dynamic content retrieval and submission for real-time updates without redeployment
- Developed a **RESTful backend** in **Python** using **Flask** and **SQLAlchemy**, designing a relational database schema with models for food trucks and user-submitted reviews
- Implemented a review system with a 1–5 rating scale and user-generated content, incorporating input validation, aggregate rating calculations, and scalable data modeling
- Applied **Agile methodology** throughout the development lifecycle, organizing work into iterative sprints with defined user stories, continuous feedback loops, and incremental feature delivery

TechServ

General Member

Sep 2025 – Present

Drexel University

- Participated in a student-run club focused on tech-based volunteering, contributing time and technical skills to service projects supporting local organizations and community members
- Collaborated with fellow members on group initiatives, sharing responsibilities and coordinating logistics across service events throughout the school year
- Engaged with peers interested in using software and technology for community impact, building connections within the Drexel tech community

Technical Skills

Languages: Python, JavaScript, SQL, HTML5, CSS

Developer Tools: Git, Linux

Libraries/Frameworks: Flask, SQLAlchemy, REST APIs

Concepts: Full-Stack Web Development, Relational Database Design, API Design, Object-Oriented Programming, Version Control, Agile Methodology
